Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

DETAILED ACTION

Response to Amendment

The amendments filed 11/14/2008 were not entered because the limitations add new material the changes the scope of the claims and would require a new search. Furthermore, although it is appreciated that the particular embodiments of the polyfunctional vinyl ether component mentioned in Applicants' Specification are, themselves, devoid of carbonyl and hydroxyl groups, there is no evidence that Applicant had contemplated their exclusion either. Therefore, the limitation added to claim 1 represents new matter.

Response to Arguments

Applicant's arguments filed 11/14/2008 have been fully considered but they are not persuasive.

The applicant has argued that the art of record does not meet their newly added claim limitations. The amendments are not being entered and therefore this argument is moot.

The applicant has made the argument that the composition of the applied art cannot provide a cured product with a low dielectric constant. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies are not recited in the rejected

claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOHN USELDING whose telephone number is (571)270-5463. The examiner can normally be reached on Monday-Thursday 6:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Eashoo can be reached on 571-272-1197. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
